### Information on the gambling suspension (personally requested self-suspension)

- > Upon receipt of a request for self-suspension, the casino is obliged to immediately order a gambling suspension for the applicant.
- > For the duration of the gambling suspension, the suspended person is neither permitted to participate in bets or lotteries which are subject to particular risk potential nor in the gambling practices of the German casinos (§§ 21 subsection 3 and 22 subsection 2, 20 of the German Inter-state Treaty on Gambling - GlüStV – "Übergreifendes Sperrsystem"). The gambling services of organizers participating in the Germany-wide suspension system are available for non-suspended players only. Enquiries by suspended players concerning the conclusion of gambling contracts are denied.
- > The gambling suspension only becomes effective after the casino has processed the request concerning the gambling services offered by the above provider. Processing is realized by means of an entry in the central suspension list. Not later than 24 hours after this entry, the gambling suspension also becomes effective for the other gambling service providers participating in the interstate suspension system via a transfer of the suspension into the suspension lists of the above providers.
- > The casino is obliged to immediately inform the applicant about the gambling suspension order in writing. Delivery of this information is not a requirement for the effectiveness of the suspension.
- > The validity of the gambling suspension is indefinite. **The minimum suspension period is one year.** After this period, the suspended person may apply for cancellation, provided that the suspended person does not suffer from gambling addiction at the time of the application and has sufficient income and capital to practice gambling. In order to meet these cancellation terms, the suspended person shall submit verifiable documents.
- > For the time of the gambling suspension, the person affected is not permitted to enter any of our gambling facilities.
- > In order to cancel the gambling suspension, the affected person shall fill in the required form and submit it to the casino that ordered the gambling suspension.
- > The applicant is obliged to update the personal data they forwarded to the gambling service provider if, due to changes, the identification of the applicant and the enforcement of the gambling suspension has become impossible.
